

Active waste separation for our environment!

How and why we separate waste!

Old packaging becomes new packaging

Lightweight and metal packaging

THIS BELONGS IN:

- Beverage bottles
- Beverage bottles (PET bottles)
- Plastic bottles for vinegar, cooking oil, ketchup, etc.
- Canister for dist. Water, window cleaner, antifreeze, detergents and cleaning agents, etc.
- Yoghurt cups, beverage cartons (Tetra Pack)
- Frozen packaging
- Styrofoam packaging
- Foils and composite packaging
- Tin cans
- Aluminum cans and foils
- Metal lids and yoghurt cup lids
- Brush-clean paint cans
- Screw caps, crown caps of metal
- Animal feed bowls
- Menu trays

Old paper becomes new paper

Waste paper

THIS BELONGS IN:

- Newspapers, magazines
- Catalogues, brochures, books
- Paper carrier bags, wrapping paper
- Letters, telephone books
- Writing paper, copy paper
- Paper sacks emptied
- Cartons and boxes folded

Save the collection volume and bring the cardboard boxes to your ASZ!

Biogenic waste = compost = valuable fertilizer

Biogenic waste

THIS BELONGS IN:

- Fruit, vegetable and garden waste
- Banana and citrus peels
- Leftovers
- Coffee and tea grounds including filters and paper bags
- Eggshells, feathers, hair
- Dirty kitchen rolls
- Cut flowers, potted plants
- Compostable cat litter
- Compostable dishes (cups, wooden cutlery, ...)

Old glass becomes new glass

Glass packaging

Separation of white and colored glass

THIS BELONGS IN:

- Glass bottles
- Canning jars
- Perfume bottles
- Other hollow glass containers

Residual waste is burned = energy

Residual waste

THIS BELONGS IN:

- Polluted old materials
- Hygiene items (e.g. diapers, handkerchiefs)
- Plastics that are not packaging (e.g. toothbrushes, old toys)
- Glass that is not packaging (e.g. window glass, lead glass, crockery)
- Rubber and leather
- Other leftovers (porcelain, ash, rubbish)

hint:

Problematic materials such as batteries, paints and varnishes; Electronic waste, bulky waste, cooking oil and much more are handed in at the waste collection center. You can find more information about this at www.gvamoedling.at

So macht Abfallwirtschaft Sinn.
